### DETAILED ACTION

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. The submitted IDS has been considered. A copy of applicant-submitted Form PTO1449 is enclosed.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no clear antecedent basis in the claims for "said gear" of claim 1, line 4, claim 8, line 2, claim 14, line 4 and claim 18, line 4.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 3 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Lavelly(4693342).

Figure 1 of Lavelly discloses a brake slack adjuster with worm gear 18, actuator 28, actuator rod 40, and pawl 62.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lavelly (4693342).

The principal reference to discloses the invention substantially as claimed. However, the principal reference to does not disclose the feature of claim 2 re the use of plastic for the actuator 28.

It would have been obvious at the time the invention was made to one having ordinary skill in the art to which the invention pertains to modify the principal reference to make the actuator out of plastic since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

8. Claims 4-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claims 14-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

10. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated Lissau(4544046).

Fig 2 of Lissau discloses pin 28, actuator 30, and rod 24.
